Permit to Appropriate Water

NO. 71-10980

5. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
6. Prior to the diversion and use of water under this right, the right holder shall install and maintain an acceptable measuring device, including a data logger, at the authorized point of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to employ an alternative method to determine and record the amount of water diverted.
7. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
8. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
9. The place of use does not include federal land.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

Signed this 22nd day of December, 20 17.

COREY SKINNER, Southern Region Manager
