Re: Notice of Change in Water Right Ownership for 87-2000

Dear Ms. Wilson,

On December 29, 2017 the Department received a Notice of Change for the above referenced water right along with a map for an additional water right not listed on the form (water right no. 87-4182) marked as "*No fee is required for pending adjudication claims*". Because these water rights are not part of the Snake River Basin Adjudication (SRBA) or the Northern Idaho Adjudication (NIA), they are not subject to a fee waiver. However, basin 87 will fall under the Palouse River Basin Adjudication (PRBA), and commencement notices are tentatively scheduled to be sent out in the spring of 2018. Although the PRBA is not officially underway, the Department is accepting claims at this time and a claim will update ownership records.

In order to change the water rights into the names of Theodore C Thompson and Kim U Thompson, the Department requires one of the following options:

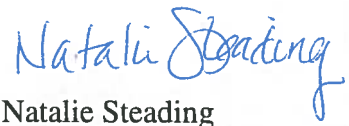

1. Submission of the \$25 *per water right* for the ownership change at this time, or
2. Submission of the \$25 *per water right* and the adjudication claim, either at this time or at the time of the PRBA

Please note that if the ownership change is processed before the adjudication claim is submitted, the filing fee for the PRBA will still be required.

Please respond within 30 days of the date of this letter. If the Department does not received a response within 30 days, we will return the Notice of Change and all other documents at that time to the address provided on the form.

If you have any questions, please contact our office at the number above or at Natalie.steading@idwr.idaho.gov.

Sincerely,
