H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-house exam. This water use was previously field examined in water right 63-11039. Please see that field exam for more specific details of the system.

Water for this permit is used to irrigate 0.2 acres of lawn around the church property. Groundwater is diverted from an existing well with a 1.5HP pump. This point of diversion is shared with water right 63-11039 and is used to irrigate 0.7 total acres around the church property. (Water right 63-11039 authorizes irrigation of 0.5 acres. The place of use is located in the lot south of 63-34371 and does not share a place of use with 63-34371.) The place of use falls within the borders of Farmer's Cooperative Ditch Company, but it doesn't appear as though the church has access to canal water.

The authorized diversion rate and volume were based on available water from the well at the shared point of diversion and the number of acres developed.

Condition 1 (236) was removed because the condition had been met with the permit. Condition 2 (806) was removed because the condition is no longer active. Condition 3 was added to clarify the shared point of diversion.

Have conditions of permit approval been met? ☒ X Yes ☐ No
