Zach,
This is ready for approval as soon as you provide a "206" map and land list,
Thanks Bill

Thanks Bill,
I understand. I can provide the 206 shapes for you. Thanks for checking on the POU acreage for 37-8444. I will get you the shapes and land lists as soon as, thanks.

Zach,
I didn't want to send the application back to the applicant, but by checking the "send all original correspondence to the applicant and copies to the representative" box on page 2 of the application, I had no other option. If the "send all correspondence for this application to the representative and not to the applicant" box had been checked, I would have been able to send it to you and you alone.

I really would appreciate "206" shapefiles for the water rights along with landlists. The shapefile for the surface water will be challenging to reproduce based on the detail of the shape versus the lack of detail on the paper map. I revaluated the shape for the Sturdivant POU and see where I missed the changes made, so my apologies, I concur that it likely is 2.5 acres and not 2.3 acres.
I appreciate your quick response,
Bill

Bill-

I do not know yet if it will be assigned, sorry but that's all I know.

The map represents the PPU boundary and acres in the PPU per QQ, as well as the "206" acres for ground and surface water, I can get you a land list.

I will also get you a map showing the remaining acreage for 37-8446, the 0.4 acres to be moved into the PPU listed on the application are located in the western most polygon on the existing IDWR shapefile for 37-8446.

Sturdivant, yes I miss-spelled the applicant, and acres per QQ will be fixed, those are my mistakes. The POU is changing, and the shapefile shows 2.5 acres, not sure where you came up with 2.3 acres.

I will try and get an amended application asap, I would have preferred you email me first so that the application could have been returned to us instead of the applicant.

Thanks for the email and I will be in touch.

Zach,

Trish mentioned that the Peter Trust LP transfer application may be assigned to another party and/or entity?

The provided map is really confusing. However, it will suffice for the PPU. What do the 5.5 and 12.7 numbers on the map represent?

I will need a land list, shapefile and/or maps for the "206" acres for the three rights in the transfer. Also, a map for the remainder of 37-8446, so I know where to trim the 0.4 acres being split off and transferred.

I appreciate your help on this.

The companion transfer for Sturdivant had to be returned and I mailed it out yesterday. The attached letter explains the issues. But, the main reason is the applicant's names didn't match the names on the provided quitclaim deed, which will require a new signature page if the quitclaim is correct.

Thanks,

Bill

Zach,

Trish just told me you were looking for the Peter Trust LP Transfer Application #, it is **81895**,
