RE: Petition for Reconsideration of Approval for Transfer No. 81190 in the Name
of M&T Ranches, LLC

Dear Nick:

Please consider this a Petition for Reconsideration of the approval of Transfer No. 81190 in the name of M&T Ranches, LLC, on behalf of the Applicant. As we discussed, the intent of the Transfer Application was to permit any of the natural flow water rights to be diverted from any of the 3 existing points of diversion and to allow the redirection of storage water from any of the 3 existing points of diversion. The application tried to make that clear at item 5.a. of the transfer application and apparently Cody Parker and I misunderstood each other when we discussed the points of diversion.

Additionally, please reconsider the requirement for locking control works and measuring devices. Although Little Squaw Creek is in an active water district, to the best of my knowledge, there are no measuring devices or locking control works within the drainage. Should a delivery call be made at some point in the future, the Director has clear authority to order the installation of measuring devices and control works at a later time if they become warranted.

Thank you for your consideration, please let me know if you have questions or need any additional information.

Yours truly,

A handwritten signature in black ink, appearing to read "Dave Shaw".

Dave Shaw
