

IN-OFFICE BENEFICIAL USE FIELD REPORT

Permit No: 67-14298

Examiner: A. Skinner

Date: 11/6/2017

In-office qualification (IDAPA 035.01.r): ☐ Irrigation $\leq$ 5 acres
☐ Stockwater storage $\leq$ 14.6 af
☒ Total diversion rate $\leq$ 0.24 cfs and not irrigation or storage

Current Owner Name: JOHN and BARBARA KWADER Address: 34 ILKA LN, MCCALL, ID 83638

Beneficial Use Fee Paid: \$50.00 Receipt: C084267

Comments:

Diversion Rate Permitted Rate: 0.05 cfs BU Standard Limit: 0.05 cfs
 BU Fee Limit: 0.20 cfs Theoretical (optional): cfs
Recommended Total Div Rate: 0.02 cfs

Annual Volume

For Irrigation: cfs x 1.9835 x days = af
 acres x af/ac (FHR) = af
 Smaller of two volumes = af

For other uses: No volume limit is necessary as IDAPA 37.03.02.035.01.j.iii states that in-stream water of livestock is exempt.

Recommended Amounts

Beneficial Use	Season of Use	Diversion Rate (cfs)	Annual Volume (af)
STOCKWATER	01/01 - 12/31	0.02	
Totals		0.02 cfs	af

Amendments Required☐ Change P.D.☐ Add P.D.☒ None☐ Change P.U.☐ Add P.U.☐ Other:**Conditions:** 103Have conditions of permit been met? ☒ Y ☐ N**Narrative:**

Permit 67-14298 authorizes the diversion rate of 0.05 cfs from HOG CREEK for IRRIGATION and STOCKWATER use purposes. Based on the small permitted diversion rate and POU, this qualifies for an in-office field exam as stated under IDAPA 37.03.02.035.01r. The exam was completed on November 6, 2017 by WRA Aaron Skinner.

Background:

A field exam letter was sent out to the owners on April 19, 2017. Mr. Kwader called into the office on April 27, 2017 and stated the irrigation component of the right was not developed. More specifically, Mr. Kwader explained that he leases the land out to a rancher who runs 50 cattle on the property. He also stated the cattle only drink directly from the stream; confirming in-stream use was developed. The removal of the irrigation component and changing stockwater to in-stream use does not require an amendment since a water right is not necessary for the use. Also, changes to this permit to recognize the in-stream stockwater use developed within the permitted QQ do not require a licensing amendment.

The Tributary was adjusted to North Crane Creek per USGS topo maps and Department policy. North Crane Creek is considered the flow through creek relative to Crane Creek Reservoir. As such, the adjustment is necessary.

Diversion Rate and Volume:

The permit authorizes a rate of 0.05 cfs (irrigation and stockwater), but by removing the irrigation component, the rate is adjusted to 0.02 cfs for 50 cattle based off Administrator's Memorandum No. 3. No volume limits are pertinent to this right since it is in-stream watering of livestock (IDAPA 37.03.02.035.01.j.iii). Two point of diversions were recommended to licensing to capture the beginning and end of in-stream use. A buffer zone was also established for the place of use with the in-stream generator tool in ArcMap.

Overlap:

There are no POD or POU overlaps associated to this right.

Ownership:

The current parcel data for Adams County identify the Kwader's as the land owners matching the permit.

Conditions:

Condition 26A was removed and not forwarded to licensing. Condition 121 was updated to 103 and forwarded to licensing. Condition R04 was removed since the only recommendation for licensing is in-stream stockwater. Conditions 01H, 086, 087, and R68 were removed since the irrigation component was not developed. Condition X02 was also removed as it is an explanatory condition and not necessary.

RE: Scheduling Field Exam for Water Right Permit No. 67-14298

Dear Permit Holder:

We are planning to conduct water right examinations in the vicinity of the above-referenced permit **during the weeks of May 8th – May 26, 2017**. An examination is needed to verify the water use in order to issue a water right license.

The above-referenced permit authorizes **0.05 cfs from HOG CREEK, a tributary of the Weiser River for IRRIGATION and STOCKWATER use**. If you have developed a beneficial use and still own the place of use property, please contact me at your earliest convenience to schedule an examination.

If you did not develop a beneficial use of water under the permit during the beneficial use period, a license cannot be issued and the permit should be relinquished. If that use was developed, but have ceased using the water and you currently carry no interest in it, please relinquish the permit by submitting the enclosed Relinquishment of Permit form (no fee required).

If you did develop a beneficial use of water under the permit, but you no longer own the place of use property identified in the permit, please submit the enclosed Assignment of Permit form with the applicable \$25 processing fee.

Please contact me within the next thirty (30) days at (208) 334-2190 to either schedule an examination or submit a relinquishment or assignment form. If you no longer own the place of use property and/or do not respond to this letter, the department will work with the current property owner to issue a license or void the permit.

Sincerely,

Aaron Skinner
Water Resource Agent
