Subject: *Change in Water Right Ownership, 61-7731*

Dear Darla,

Per your request letter dated June 28, 2017, enclosed on behalf of Elmore County Board of Commissioners, is a *Notice of Change in Water Right Ownership* for water right permit 61-7731. This will allow the Department to license the water right in the name of Elmore County Board of Commissioners rather than Mountain Home Groundwater Advisory.

Check No. 2017-0077867 is enclosed for the \$25 filing fee.

Please let me know if there are any questions. Thanks Darla.

Sincerely,

A handwritten signature in black ink, appearing to read "Lori Graves", written in a cursive style.

4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: May 15 2017
*Scott King's confirmation with prior advisory committee members that committee had disbanded. See his Beneficial Use Report.
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
- ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
- ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
- ☒ Filing fee (see instructions for further explanation):
- ☐ \$25 per *undivided* water right.
 - ☐ \$100 per *split* water right.
 - ☐ No fee is required for pending adjudication claims.
- ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
- ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Conditions of Approval:

1. 053 The Director retains jurisdiction over this right and may change, add, or remove any requirement as determined to be appropriate.
2. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. 61A.
3. 051 Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
4. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
5. 020 Use of water under this right may be affected by an agreement between the protestant and the right holder.
6. 052 Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
Upon specific notification by the department, the right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured. Return flows discharged to any subsurface system must be authorized by separate injection well permits. Groundwater recharge storage place of use is locally known as Fraser Reservoir. Prior to diversion of water under this right, the right holder shall consult with the department to determine the best construction methods for the diversion structures.
7. This right is subject to all prior water rights, including those water rights for power purposes that may otherwise be subordinated by contract entered into by the governor and Idaho Power Company on October 25, 1984, and ratified by the legislature pursuant to section 42-203B, Idaho Code. Pursuant to section 42-4201A(3), Idaho Code, the director may reduce the amount of water diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right. To insure that other water rights are not injured by the operations of the recharge project authorized by this right, the director retains jurisdiction to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.

| 8. | 18B | The storage of water under this right is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code. |
| 9. | 004 | The issuance of this right does not grant any right-of-way or easement across the land of another. |
| 10. | 081 | Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare. |
