

## MEMORANDUM

**Date:** December 13, 2017  
**To:** Transfer 82054  
**From:** Ryan Tracy  
**Re:** Review & Evaluation of Sufficiency of Information

This transfer proposes to correct the legal description for the place of use for the water right 75-10131. The place of use was claimed and decreed in the wrong QQ. The legal description that matches the current place of use is SWSE, Section 11, T25N, R21E. Deeds included with the SRBA claim and ownership changes filed after the SRBA partial decree confirm that the proper place of use for water right 75-10131 is the SWSE of Section 11.

**Authority to File:**

The Applicants are the current owners of the water rights per IDWR record and owner of the property per warranty deed.

**Water Right Validity:**

Decreed in 2008. Aerial photography shows consistent irrigation. Application included photos of irrigation pump. Forfeiture is not an issue.

**Injury to Other Water Rights:**

This application does not propose any physical changes to the system. It only corrects the QQ for the place of use. This application will be processed with no advertisement. This water right is not currently in a water district.

**Enlargement of Use:**

No issues identified.

**Local Public interest:**

No issues identified.

**Beneficial Use/Conservation of Water Resources:**

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
