CONDITIONS OF APPROVAL

1. Rights 57-2249A and 57-7626 when combined shall not exceed a total diversion rate of 2.45 cfs.
2. This right is for the use of trust water, and it is subject to review 20 years after its initial approval (December 6, 1996) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.

4. Commercial use is for heating, for plant watering, and chemical mixing for greenhouse.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
