Concerning the application for water rights 96-9686 Marc Brinkmeyer. We, Brett A. and Kristy ML. Evans object to the granting of further water rights on this water. We are current holders of water rights. The past few years, there has not been enough water to fulfill our rights. We have been unable to irrigate, and provide water for our livestock. As holders on the end of the system, many days, we receive no water especially in July August, and September. The reason being too much water is already being taken out before it reaches our property.
