Re: Transfer Evaluation

Transfer No. 81920 proposes to move an 8-acre portion of water right 31-11738 to a new point of diversion and place of use.

Authority to file:

Chad Larsen is the current owner of record for water right 31-11738 and the owner of the existing point of diversion and place of use. Richard and Peggy Larsen own the property at the proposed point of diversion and place of use. The application was signed by Chad Larsen and included an authorization from Richard Larsen allowing placement of the water on his property. The water right lists Rabo AgriFinance as a security interest. The application contained an authorization from the security interest to move the water to Richard and Peggy Larsen's property.

Validity of the Water Right:

Water right 31-11738 was decreed on March 3, 2004. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. An ESPA analysis was conducted and submitted with the application. The analysis was set up correctly and showed that no mitigation is required. The application was advertised, no protests were received. The water master for WD110 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
