Subject: RE: Interagency Billing

Adam,

They can't pay us without a permit number. Isn't there a way to assign a permit number without payment?

Sascha

Coeur d'Alene, ID 83815

RECEIVED
JUL 24 2017
IDWR/NORTHERN

Adam:

I have included the adjusted place of use Application for Amendment for Deyo Reservoir and the additional storage Application for Permit for Deer Creek Reservoir. Processing these permits should complete the permitting requirements for both reservoirs. I request the fees associated with the Application for Amendment and Application Permit be charged through the interagency billing process to PCA 31220, Activity F2, Species NX.

Thank you for your assistance, please let me know if you have any questions.

RE: Water Right Permit No. 83-11930

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing water right license(s). By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit(s) have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Section 42-211, Idaho Code. Before license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

☐ **Point(s) of Diversion**

☒ **Place(s) of Use**

☐ **Other**

The enclosed Application for Amendment form(s) depicts the elements of the water right(s) as they will appear on the license(s) when issued. Please review the amendment form(s) carefully. If you concur with the information presented, please sign and return the form(s) with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at 208-762-2800.

Sincerely,

Adam Frederick
Senior Water Resource Agent
