Subject: 75-14874 Bockman Application For Permit
Attachments: BLM MTP T23N R22E Sec 3.pdf

Pam,

Thank you for talking with me a few minutes ago about this application. It is clear from the application that the water right is intended to be on private land. Our concern is that the quarter-quarter, SESW Sec 3, is half private land and half National Forest System land. It would be appreciated that the appropriate IDWR standard clause saying something to the effect that the POD and POU of this water right are not on federal land be included on the permit and subsequent license. That way it is even more clear that the water right is on the private land for anyone delving into the legals a year or 10 from now.

The attachment is part of the BLM MTP showing the block of private land in Section 3. It is entirely surrounded by NFS land and some 40 acre quarter-quarter aliquot parts around the private land are split private and federal ownership.

If you have any questions about this matter please contact me.

Thank you,

Steve
