RE: Service of Amended Approval for Transfer 81188

Date: November 16, 2017

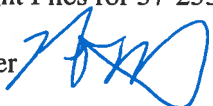

.....

On October 23, 2017 I mailed Amended Approval of Application. The dates on the cover letter and certificate of service incorrectly read August 10, 2017 which is when the original Approval was issued. The dates were inadvertently not changed when I sent them with the Amended Approval. I have reviewed the cover letter and certificate of service and verified that both documents should have been dated October 23, 2017.

RE: Service of Amended Approval for Transfer 81188

Today it was brought to my attention that the Amended Approval of Application for Transfer Number 81188 was delivered with a cover letter and certificate of service bearing incorrect service dates. The approval was issued on October 23rd, 2017 and passed on to Rachel Neely who prepared a cover letter and certificate of service and placed them, together with the approval, in the mail on that same day. I have reviewed copies of the approval documents and the date on the cover letter and certificate of service should both have been October 23rd, 2017.
