Bill-

Per the email below and our phone conversation yesterday, please see the attached amended transfer page 3 and map associated with IDWR water right Transfer No. 81895 as they are intended to amend the application such that conditions 1 and 2 below are met. Please follow Mr. Fred Price's directions relative to conditions 3-5. I believe you can reply all to this email to satisfy condition 4.

Please let me know if you have any questions, thanks for your time.

Zach,

RE: Transfer 81895, 37-08102 et. al., Peter Trust Limited Partnership

BLM's protest can be resolved by you officially amending the application for transfer:

- (1) amend pg 3, Part 1. B.4. to delete T02N, R18E, S05, NWSE and the 0.2 acres that go with it;
- (2) amend pg 14, Part 3. A. (Attachment 7.b.) with the new map you provided;
- (3) file the amended pages with IDWR, such that they stamp the new pages as "amended" and the old pages as "superceded";
- (4) have IDWR send me the amended application stamped received by IDWR;
- (5) I will review the amended application and hopefully will be able to withdraw the protest.

Fred-

Per your recent protest to my clients IDWR water right transfer no. 81895, I am contacting you today in hopes of expeditiously resolving the protest. The inclusion of 0.2 acres in T.2N R.18E SEC. 5 NW ¼ SE ¼ was an error, those 0.2 acres have been removed from that QQ as shown in the attached map, and moved into the NE ¼ SE ¼. Further, the applicant agrees not to irrigate Federal Lands. We would like to get this matter resolved as soon as possible, with a withdrawal of the protest so that processing of the transfer may resume.

Please reply with any questions or comments. I hope to hear from you in the very near future, thanks for your time.
