RE: *Update on Transfer No. 80059*

Dear James:

You will recall at the Prehearing Conference for Mitchell Sorensen's Application for Transfer No. 80059 we reached an agreement with protestant, Kirby Jensen, to resolve his protest. As part of that agreement, my client agreed to reduce the size of the casing on the Old Moss well to an 8 inch casing. Once that work is done, the Department will conduct a field exam to verify compliance with the agreement for the withdrawal of Kirby Jensen's protest. I am writing to give you an update on that work. Attached you will find an estimate agreement from Golden West Irrigation that Mitchell has obtained to have the work done. He anticipates that this work will be completed as soon as Golden West is able to do it.

Once that work is completed, we will notify you and the Department can schedule a time to conduct the necessary field exam to verify that the work has been done. As part of the agreement referenced above, Kirby Jensen may also enter the property to verify that the work has been done but only if accompanied by an agent from IDWR. As per the agreement, once you have verified that the work has been done, we anticipate that shortly thereafter Mr. Jensen will withdraw his protest and the Application for Transfer will be approved.

If you have any questions, do not hesitate to contact me.

Best Regards,

Luke H. Marchant
