Subject: Application for Transfer 80059 (Sorensen)

Luke,

This email is meant to confirm our conversation from yesterday. To resolve the issues of protest in this contested case, Sorensen agreed to reduce the existing well down to an 8-inch casing. Prior to the protest being withdrawn and the transfer approved, the Department was to inspect the well to verify the project was completed as specified. Protestant Kirby Jensen could accompany the Department during the inspection.

In September, you sent a letter stating that Golden West Irrigation had agreed to do the work as soon as they could get to it. It's been over three months since your letter. When you get a chance, can you provide an update on the well reduction project. Was Golden West able to get the work done during the fall? If not, when do you expect the work will be completed?
