Right Acre Limit: 160.0

POU Total Acres: 1939

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 160 acres within the authorized place of use in a single irrigation season.
2. Rights 63-2754, 63-2867, 63-2975, 63-3104, 63-3490A, 63-3492, 63-7561, 63-7793 and 63-4799 when combined shall not exceed a total annual maximum diversion volume of 4,743 af.

Transfer No. 81897

WATER RIGHT NO. 63-7793
As Modified by Transfer No. 81897

CONDITIONS OF APPROVAL

3. Rights 2-68, 63-2754, 63-2867, 63-2975, 63-3104, 63-3490A, 63-3492, 63-7561, 63-7793 and 63-4799 when combined shall not exceed a total irrigation of 1454.1 acres from ground water, and no more than 400 acres with water diverted directly from the Snake River, in a single irrigation season.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
6. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than 3/3/2011.
7. The diversion rate of water, and the annual volume of water, diverted at each and every point of diversion shall not exceed the amount originally licensed at that point of diversion.
8. Each point of diversion shall maintain its original priority date, and in times of water shortage shall be regulated according to the original priority date associated with that point of diversion.
9. This right does not grant any right-of-way or easement across the land of another.
10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

An application for transfer must be prepared in accordance with the minimum requirements listed below to be accepted for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Frank Tiegs LLCCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes ☒ N/A ☐ * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☒ ☐ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Existing diversion systems and delivery systems. There are existing ground water wells that supply ground water. The Snake River water is diverted and delivered to the property by Hat Butte Canal.

- b. Who owns the property at the point(s) of diversion? Hat Butte Canal and Frank Tiegs LLC

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: None

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☒ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
No change to land that is currently irrigated.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

None

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|-------------------------------------|-------------------------------------|---|
| ☐ | ☒ | undergone a period of five or more consecutive years of non-use, |
| ☒ | ☐ | currently leased to the Water Supply Bank, |
| ☐ | ☒ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

A lease application for water right 63-3490A is being submitted to the Idaho Water Supply Bank.

A. DESCRIPTION OF RIGHT(S) AS RECORDED

Insert Part 2A reports into the application following Part 1.

☐ Complete and attach one copy of Part 2B for each right for which only a portion is proposed to be changed. If the entire right is proposed to be changed, Part 2B is not applicable. Additional copies of the **Part 2B** form can be obtained from any Department office or from the Department's website @ www.idwr.idaho.gov, Water Right Transfers, Step 3, or Water Right Forms, Changes in Use. Insert completed Part 2B forms into the application following Part 2A of the same water right.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**.

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

**APPLICATION FOR TRANSFER OF WATER RIGHT
ATTACHMENT WSB:
TRANSFERRING WATER RIGHTS LEASED TO THE WATER SUPPLY BANK**

Approval of a transfer application will not impact the terms of a Water Supply Bank Lease Contract. Any transferred water right or portion of a water right that is leased to the Water Supply Bank (Bank) shall remain unused while the lease is active.

If the transfer proposes to relocate the place of use of an irrigation water right, and the relocated acres include land currently idled due to a Bank lease contract, the applicant is required to identify the areas that will be idled at the new place of use for the duration of the lease contract. The acres to be idled should be clearly identified on the map created for Attachment 7B of the transfer application. The applicant should confirm the map is attached when completing the table below. If the leased portion of the place of use is not proposed to be relocated, a map is not required.

A Bank lease contract shall remain in effect until it expires, a new lease proposal is processed to replace it, or the water right is released from the Bank through written confirmation issued by the Water Resource Board. If the proposed transfer is approved, the water right owner will be provided sufficient time to allow the lease contract to expire before beneficial use of water at the new place of use will be expected. Meanwhile, water rights leased to the Bank are protected from forfeiture for the duration of the lease contract.

Water right owners who would like to adjust the terms of their lease contracts can either submit a new lease proposal on an [Application to Lease a Water Right to the Water Supply Bank](#) form, or they can request early termination of their lease contracts by completing a [Request to Release a Water Right from the Water Supply Bank](#) form. If a water right is leased to the Bank, and it is currently being rented from the Bank, the lease cannot be reduced or terminated until the rental agreement concludes. A request to release a water right or to submit a new lease application should be sent to the Department's state office. To find out if there are any rentals associated with a leased water right, please call a Bank representative at the Department at 208-287-4800.

In the table below, please provide the requested information for any water right that is both proposed for transfer and leased to the Bank. The information needed to complete this table can be found in your Bank lease contract. A copy of your lease contract can be obtained using the 'Search Water Rights' option on the Department's internet page at www.idwr.idaho.gov or by contacting any Department office.

Re: Hat Butte Mutual Canal Company consent to Applications for Transfer of Water Rights in the name of Frank Tiegs, L.L.C.

Dear Greg:

Thank you for your May 19, 2017, email by which you requested consent from Hat Butte Mutual Canal Company ("Hat Butte") to the proposed Application for Transfer of Water Right Nos. 2-2280, 2-2368, 2-2422, and 63-31977 and Application for Transfer of Water Right Nos. 2-68, 63-2754, 63-2867, 63-2975, 63-3104, 63-3492, 63-3490A, 63-4799, 63-7561 and 63-7793 (collectively, the "Transfer Applications"), in the name of Frank Tiegs, L.L.C. ("Tiegs"), copies of which were attached to your email. Also, thank you for your June 30, 2017 answers to clarifying questions asked by Hat Butte's attorney, and the amended pages to the Transfer Applications you provided on the same date.

The Transfer Applications as amended by you on June 30 (collectively, "Amended Transfer Applications") propose to create permissible places of use and to update the irrigation places of use for the referenced water rights; they do not propose any other changes to the water rights. As required by I.C. § 42-108, Hat Butte must consent to any proposed changes to the surface water rights included in the Amended Transfer Applications (*i.e.*, the rights with the "2" prefix) because those rights currently are diverted and delivered by Hat Butte through its facilities.

Hat Butte will consent to the Amended Transfer Applications only if Tiegs agrees to the terms and conditions set forth below. Please have Tiegs' execute this letter in the space provided below to acknowledge Tiegs' agreement to such terms and conditions, and return the signed letter to Hat Butte. With or without Tiegs' signature below, any use of this letter in support of the Amended Transfer Applications will be deemed to signify Tiegs' agreement to all terms and conditions contained herein.

Hat Butte's consent to the Amended Transfer Applications is conditioned upon Tiegs' agreement to defend, indemnify, and hold Hat Butte harmless for any claim, loss or liability arising out of or in any way connected with the Amended Transfer Applications, and for any costs related to the Amended Transfer Applications, including without limitation any costs

Mr. Greg Sullivan

associated with reducing, measuring, or reporting diversions (or reductions in diversions) of water using Hat Butte's facilities.

Hat Butte's consent is limited to the Amended Transfer Applications attached to your May 19, 2017 email (as amended by you on June 30, 2017). Any amendments to the Amended Transfer Applications and any other applications (including without limitation Water Supply Bank applications and transfer applications) will require additional consent from Hat Butte.

If the Amended Transfer Applications are approved, Tiegs shall continue to hold all of its existing shares in Hat Butte and shall continue to pay all Hat Butte assessments without any reduction or discount for the amount transferred.

Again, Hat Butte's consent will be effective only if Tiegs agrees to the terms and conditions set forth above. To acknowledge the agreement, please have Tiegs' execute this letter in the space provided below and return it to Hat Butte.

Sincerely,

Mike Siegersma
President, Hat Butte Mutual Canal Company

**ACKNOWLEDGEMENT OF ACCEPTANCE OF
TERMS AND CONDITIONS OF CONSENT**

Frank Tiegs, L.L.C. ("Tiegs") agrees to the above-described terms and conditions by which Hat Butte Mutual Canal Company ("Hat Butte") is willing to provide consent to the Amended Transfer Applications (defined above). Tiegs acknowledges Hat Butte's consent is subject to such terms and conditions.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee.

Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 81897
FROM: Patrick Kelly
DATE: 10/4/2017
RE: Evaluation of Application

Summary of Information Submitted

Transfer Application No. 81897 proposes to create a 1,944 acre PPU with a 1,854.1 acre limit. Changes to diversions or irrigation methods are not proposed. The farm is located on the SW corner of Deer Flat and Sky Ranch Rd, approximately 2 miles south of Lake Lowell, Canyon County.

Greg Sullivan of Brockway Engineering is the representative in Twin Falls at (208)736-8543. 63-34090A was recently leased into the Water Supply Bank for a total of 15.1 acres. The leased acres are not currently irrigated by the farm, and should continue to be idle post transfer. These acres are not affected by the transfer, so normal transfer processing may continue. Correspondence in regards to the transfer has been sent to the state office.

Correspondence with the representative was made to amend Part 1B.2. to reflect all of the water authorized under license was changing. This also required the applicant to pay an additional \$1,920. The transfer application was incomplete until both of these items were received on 9/11/2017.

Part 1B.4. was originally completed to the tenth of an acre for a total of 1,913.2 acres. A PPU shape was created to match the map submitted in the application. It was discovered that the legal description on "Page 3" did not match the map. Taxlot data also did not support the legal description. A request to amend Page 3 was sent to the representative to correct the legal description. An amended Page 3 was received 10/2/2017 for a total PPU of 1,944 acres. A number of the QQ's described 41 acres. However, these are not identified as government lots, and ArcMap tools used at the department suggest these are standard 40 acre tracts. My analysis of the property measures a total PPU area of 1,939 acres.

Authority to File: The application was filed in the name of Frank Tiegs LLC and was signed by a Mr. Tiegs. According to ID SOS records for this company, Mr. Tiegs is the Member and Manager to the company. Frank Tiegs is current owner to all of the rights relevant to the transfer.

Water Right Validity: The rights were decreed in 2011. Review of 2015 aerial imagery shows fully irrigated lands associated with the POU. A Water Supply Bank lease protects non irrigated land from forfeiture. All rights presumed to be valid.

Overlap Analysis: Place of use comparison tool finds that all water rights pertinent to the Frank Tiegs farm at this location are included in the transfer. No other rights should be considered.

Injury to Other Water Rights: None anticipated. Changes to points of diversion are not proposed. At the time of this review, the farm is within the South Canyon County area of concern boundary. Because changes to the POD or delivery methods are not proposed, processing may resume without further comment needed.

Enlargement of Use: None anticipated. Frank Tiegs diversions will continue to be limited to combined use limits that were placed on the rights when decreed. The farm will still be limited to a total of 1,854.1 acres and groundwater diversions to 4,743 acre-feet.

Local Public Interest: Review staff has no information that would compromise the local public interest.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Summary: Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

Re: Frank Tiegs LLC PPU Transfer

Dear Mr. Miller:

The attached transfer application proposes to create a permissible place of use for water rights 2-68, 63-2754, 63-2867, 63-2975, 63-3104, 63-3492, 63-3490A, 63-4799, 63-7561 and 63-7793. The transfer would correct the location in which 2-68 is actually being delivered and utilized on the farm. The transfer will also allow easier management of the ground water rights.

Hat Butte Mutual Canal Company delivers water right 2-68 for Frank Tiegs LLC and has expressed their concern that the current POU of 2-68 is incorrect. Hat Butte Mutual Canal Company reviewed the proposed transfer application and have provided a letter of consent to the proposed transfer.

The application will not be transferring in any additional water right acres, the beneficial use will not be changing, the ownership will not be changing, PODs will not be changing and the period of use will not be changing.

A lease application for 15.1 acres of water right 63-3490A has been submitted to the Idaho Water Supply Bank. Water right 63-3490A was decreed in 2011. The sixth year after the decreed date is 2017. A lease contract for the 15.1 acres will prevent any forfeiture issue for water right 63-3490A.

A total of 31.17 cfs or 6543.0 acre-feet will be changed due to this transfer. Which will require a transfer fee of \$2,500.00. A fee of \$580.00 has already been submitted to IDWR. An additional \$1,920.00 is attached to this letter.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer

Re: Water Right Transfer Application Incomplete - Returned

Dear Mr. Sullivan:

This office received an application for transfer of water right filed on behalf of Frank Tiegs LLC on August 25, 2017. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **The Fee**
 - The application proposes creation of a 1913.2 ac permissible place of use for 10 (ten) water rights totaling a diversion rate of 31.17 cfs. The application form indicates only 1.74 cfs &/ 365.25 afa is proposed for change. However, the rights proposed for transfer do not currently have a combined rate limit and the current place of use for each right is small enough that the entirety of each right could be moved to different acres within the proposed permissible place of use. Therefore, IDWR views the entirety of each right as being subject to the proposed change and required filing fee. A total transfer filing fee of \$2,500.00 based on the rate of 31.17 cfs is required. Alternatively, a combined rate limit of 1.74 cfs (based on the form and filing fee received) could be placed on the rights if that is part of the proposal. If it is the applicant's intent to retain the ability to divert 31.17 cfs under the rights (not create a rate limit via the transfer filing), please submit an additional \$1920.00 (\$580.00 received 8/25/17 with initial filing).
- **Part 1B.2. Total amount of water proposed to be transferred or changed:**
 - If it is not the applicant's intent to create a combined limit of 1.74 cfs &/ 365.25 afa for the ten (10) water rights proposed for transfer, please have the applicant amend this item of the form to clearly state the intended amount of water subject to the proposed change.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit together with payment of the fee within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. You may receive future correspondence regarding more specific details and/or questions regarding the application. This correspondence serves only to request amendment(s) and associated filing fee to ensure a complete filing is submitted to allow for future review. Please contact me at 208-334-2190 if you have any questions about the necessary amendment or fee.
