RE: Rule 35 Incomplete Application for Permit—Incorrect Township, Range, and Section

Dear Mr. Parker:

Idaho Department of Water Resources (IDWR) received your partially completed Application for Permit on October 27, 2017 for .07 Cubic Feet per Second (CFS) using Priest Lake Domestic purposes. A copy of your incomplete Application is enclosed. Completion of the Application with the correct Place of Use legal description on Page 2, matching the Application map, is required before IDWR can publish accurate legal notices. A signed copy of your deed to the property is also required.

Idaho Administrative Code (Rule 35 Water Appropriation Rules IDAPA 37.03.08) requires that the legal description of the Point of Diversion (POD) and Place of Use (POU) be described to include the correct Township, Range and Section on both the Application (line 9) and accompanying map. Your Application does not include the correct POU legal description for the Township, Range, and Section corresponding to the Application map.

Please contact me if you need help to submit the completed Application with the correct information or contact me for an appointment at the IDWR Northern Region office by November 11, 2017. I can describe how to use the enclosed IDWR map to complete the Application if you need help. Please submit a written request if you need additional time to provide the information. IDWR can grant additional time upon a showing of good cause for the delay.

I can be reached at (208) 762-2816.

Respectfully,

Shaun M. Maxey
