DEPARTMENT OF WATER RESOURCES**STATEMENT OF COMPLETION**
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00Receipt No. 8104160

Received By _____

Date Received 9/25/17

The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been **completed** and that water has been applied to beneficial use to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner.** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, contact any Department office or visit the Department's website at idwr.idaho.gov for an *Assignment of Permit* form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 91-7710

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist

MEMORANDUM

TO: Water Right Permit File 91-7710

FROM: Daniel A. Nelson

DATE: November 7, 2017

SUBJECT: Field Examination Required

This permit is for an irrigation use. There are two overlapping water rights. One of the rights (91-7551) is for domestic use from a well, which shouldn't be an issue other than possible overlap for the yard irrigation. However, the other right (91-7106) is from the same source (Reeds Creek), and authorizes irrigation, irrigation storage, irrigation from storage, and diversion to storage for 1 acre of ground.

This permit is for 4 acres of irrigation. This creates a dilemma on how the entire system works. If the irrigation from storage is being used on the acres associated with this permit, then there could be issues with the place of use from water right 91-7106. I also found that there may be a small pasture to the east that may be irrigated under this permit, that isn't included in the place of use.

There are simply enough questions on this system that a field exam should be done to ensure that everything that they are doing is covered and that there aren't any issues with the overlapping water rights. The only way this can be done is to go out to the place of use and determine how the system is actually set up.
