Re: Application No. 65-23690, request for waiver

Dear Racheal

I received a request from Patrick Hill to waive the requirements for a lockable diversion device and also a measuring device on the inlet, and the outlet of the proposed reservoir. He explained his intended method of operation, and the difficulty that would be encountered.

After reviewing his application I agree, it is acceptable to waive the requirements for a lockable device and a measuring device at this time.

I request the Department of Water Resources reserve the right to reinstate these requirements in the event it becomes necessary to administer the water rights on this unnamed stream at a later date.

If you have any questions please contact me at 208-642-4465

Sincerely,

Ron Shurtleff
