STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 75-14874

RECEIVED

SEP 14 2017

1. Name of applicant(s) Jeffrey J Bockman & Kelly A Bockmon Rev Family Trust Phone 209-887-2810 **DEPARTMENT OF WATER RESOURCES**
Name connector (check one): ☐ and ☐ or ☐ and/or

Mailing address 18501 E Comstock Rd City Linden
State CA ZIP 95236 Email kbockmon@verizon.net

2. Name of representative, if any _____ Phone _____
Mailing address _____ City _____
State _____ ZIP _____ Email _____

- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.

3. Source of water supply Ground Water which is a tributary of _____

4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
23N	22E	3			SE	SW	Lemhi	ground water	

5. Water will be used for the following purposes:

Amount 0.05 cfs for IRRIGATION purposes from 4/01 to 10/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) 0.05 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. existing well and submersible pump to automatic sprinkler system
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____

For Department Use

Received by SB Date 9/14/17 Time 1:45 Preliminary check by _____
Fee \$ 100 Received by SB Receipt No. C104129 Date 9/14/17

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the [Municipal Water Right Application Checklist](#).
- Domestic; show number of households _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
23N	22E	3												1.5					1.5

Total number of acres to be irrigated: 1.5

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 75-10157 used for culinary purposes

- Who owns the property at the point of diversion? applicant
- Who owns the land to be irrigated or place of use? applicant*
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. *Please note that Lemhi taxlot locations are not accurate. Property line shown is correct lot lines.

13. Time required for completion of works and application of water to proposed beneficial use is 2 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

75-14874

JEFFREY J BOCKMON AND KELLY A BOCKMON REVOCABLE FAMILY TRUST

18501 E COMSTOCK RD

LINDEN, CA 95236

Point of Diversion SESW S3 T23N R22E LEMHI County

Source GROUND WATER

Use: IRRIGATION

04/01 to 10/31

0.05 CFS

Total Diversion:

0.05 CFS

Date Filed: 9/14/2017

Place Of Use: IRRIGATION

T23N R22E S3 SESW

Total Acres: 1.5

This application proposes the diversion and use of water from ground water tributary of the Salmon River Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acre will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

This application proposes the diversion and use of water from an unnamed stream tributary of the Salmon River Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acre will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the State office at (208) 287-4800; or for a full description of the right(s), please see <https://idwr.idaho.gov/apps/ExtSearch/WRAApplicationResults/>. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, State Office, 322 E Front St, PO Box 83720, Boise, ID 83720 together with a protest fee of \$25.00 for each application on or before 11/20//2017. The protestant must also send a copy of the protest to the applicant.

Application For Permit No. 75-14874

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 11/2/2017 and 11/9/2017. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script that reads "Jean Hersley".

MEMORANDUM

Date: October 24, 2017
To: Water Right 75-14874
From: Sandra Thiel
Re: Application Review

Applicant According to the 2017 Lemhi County parcel data Jeffrey J and Kelly A Bockmon own the property. The application is in under Jeffrey J Bockmon and Kelly A Bockmon Revocable Family. Kelly and Jeffery are both trustees.

On September 21, 2017, the Department sent a local public interest letter to the Bockmons giving them an additional 30 days to provide information in favor of their application. As of October 24, 2017, they had not responded.

Source & POD Gary Butcher drilled the well in 1999. That same year the Meltons purchased the property. The Snake River Basin Adjudication Court decreed domestic right 75-10157 in the Meltons name in 2002. Right 75-14874 will share the existing well.

Water Use & Quantity Irrigation is for 1.5 acres at 0.03 cfs per acre or 0.05 cfs. The existing well and submersible pump will supply an automatic sprinkler system.

POU The application identified the irrigation place of use on property that belongs to Jeffrey J. and Kelly A. Bockmon. The proposed place of use is not currently within a water district

The place of use does not fall entirely within the Bockmon parcel. The applicant included a warranty deed describing the property including the place of use expanded beyond the parcel boundary.

POU/POD overlap analysis Right 75-7120 from East Fork Tower Creek for fish propagation is owned by Jeffery J Bockmon and Kelly A Bockmon Revocable Family Trust.

Jill L and David K Melton own ground water right 75-10157 for domestic in house use. The Meltons are the previous owners of this property. Sometime 2014 or 2015 the Bockmons purchased the property from the Meltons.

Robert W Long, owns right 75-7107 from East Fork Tower Creek for domestic use.

Linda and Arthur Donatelli hold spring right 75-7074 and ground water right 75-10255 both for domestic use. The Donatelli Family Trust holds 75-7450 from East Fork Tower Creek and spring right 75-7519, both for irrigation. The Donatelli property is just north of the Bockmons.

John C Rye Jr holds ground water right 75-10575 for domestic use at the property to the south.

Conditions I recommend the following conditions:

26A – the development period is for more than one year

X35 – This right will be from a shared well

Conditions 01H, 196, 197 and 198 address a lockable device, measuring devices and water master authority.

R67 limits the rate and volume

Hello,

Your application for permit is under review at the Department of Water Resource's office in Boise. I am emailing you a copy of a letter that will be mailed tomorrow, September 21. The letter provides you with additional time for response. It is sent to all applicants in your area. We will withhold your application from processing for 30 days or until you respond to the letter. You may also respond to this email. Upon receiving your comments, or after the 30 day period, your application will be forwarded for legal notice in the paper

RE: Application to Appropriate Water in the Upper Salmon River Basin 75-14874

Dear Water Right Applicant:

The Department of Water Resources' (IDWR) records show you filed an application to establish a new use of water in the upper Salmon River basin. Idaho Code § 42-203A(5) requires IDWR to determine whether each water right application satisfies all the criteria necessary for appropriating water in Idaho. One statutory criterion requires IDWR to determine the local public interest relative to the proposed water use. Idaho Code § 42-202B(3) defines the local public interest as "the interests that the people in the area directly affected by a proposed water use have in the effects of such use on the public water resource." The local public interest has many facets, including the effects of a proposed water use on aquatic habitat for fish and wildlife resources.

The upper Salmon River basin is home to stocks of Chinook salmon, sockeye salmon, steelhead trout, and bull trout, all of which are listed as threatened or endangered under the Endangered Species Act (ESA). Since the early 1990s, local water users, conservation districts, and federal and state agencies have cooperated to implement conservation measures intended to protect and restore habitat for ESA-listed species in the upper Salmon River watershed. For example, at the request of local water users the Idaho Legislature directed the Idaho Water Resource Board (IWRB) to establish a minimum stream flow in the lower Lemhi River for fish passage. The minimum stream flow is maintained through a water supply bank and temporary or permanent acquisition of additional water supplies by willing buyers from willing sellers.

Pursuant to the Snake River Water Rights Agreement of 2004, Idaho has been developing a long term conservation plan for the benefit of ESA-listed species in the Lemhi River basin. Improving conditions in flow-limited river reaches and streams is a fundamental component of the Lemhi plan. In addition to IDWR, numerous state agencies, including the Office of Species Conservation, Idaho Department of Fish and Game, Idaho Department of Environmental Quality, Idaho Soil and Water Conservation Commission, and Idaho Department of Lands, have committed and continue to commit significant resources toward this objective under the following programs:

- Columbia Basin Water Transactions Program
- National Marine Fisheries Service Pacific Coastal Salmon Recovery Fund
- U. S. Fish & Wildlife Service Aquatic Species Conservation Fund
- Salmon and Clearwater River Basins Habitat Fund
- 2008 Columbia Basin Fish Accords

A myriad of habitat restoration projects are being constructed/implemented in other parts of the upper Salmon River basin. These projects have been coordinated with the local communities and water users through the Upper Salmon River Basin Watershed Program and predecessor programs, including the model watersheds. Furthermore, the Snake River Water Rights Agreement of 2004 contemplates the development of additional conservation plans for other upper Salmon River basin watersheds. Accordingly, the Comprehensive State Water Plan revised by the IWRB contains policies for the Salmon River basin that focus on the protection and restoration of instream habitat for ESA-listed species through voluntary participation in conservation programs.

Because of the ESA-listed species recovery efforts in the upper Salmon River basin, IDWR must determine on a case-by-case basis whether it is in the local public interest to authorize proposed water uses that would further deplete flow-limited stream reaches.

Pursuant to Rule 40.04.c of the Water Appropriation Rules (IDAPA 37.03.08.040.04.c), the applicant has the ultimate burden of persuasion regarding the items that must be evaluated in connection with each water right application. Before proceeding further with your application, IDWR requests you submit additional information about how your proposal invokes any local public interest concerns for ESA species recovery.

Within 30 days, please submit any additional information you believe IDWR may need to evaluate and determine the local public interest in the water you propose to divert and use. If IDWR has not received a response from you within 30 days, IDWR will assume you have no comment regarding the local public interest, and processing of your application will resume with the information currently on file. Processing will include public notice and the potential for formal protests by other interested parties. Applications that are not in the local public interest will be denied. If you wish to withdraw your application before it is processed, please notify IDWR in writing.

If you have any questions, please call me at 208-287-4951, or email me at pam.skaggs@idwr.idaho.gov.

Sincerely,

For Pamela Skaggs
Water Rights Supervisor
