Dear Applicant(s):

The Department of Water Resources has received your 15 water right applications. Please refer to the numbers referenced above in all future correspondence regarding these applications.

Legal notices of the applications have been prepared and are scheduled for publication in the IDAHO STATESMAN on 11/2/2017 and 11/9/2017. Protests to these applications may be submitted for a period ending ten (10) days after the second publication.

If any of the applications are protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If any of the applications are not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the applications.

Sincerely,

Rachel Neely
Administrative Assistant

Eric,

Thank you for clarification regarding the PODs. I will add a note to the legal notice explaining the applicant proposes to construct one well in one of the locations listed.

You may amend the applications simply by adding an S and D, for the stockwater and domestic uses, to the graph on item 9 of the application to identify all QQ for the place of use. Using 63-34388 as an example, an S should be placed in the graph directly under 3.7 acres to identify stock in the NWNE, then a D should be placed in the graph directly under that to describe domestic use in the NWNE.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
5N	1W	16	6.4	3.7															10.1
5N	1W	16	S																
5N	1W	16	D																

Once completed, initial and date the amendments, and email the amended page 2 of each application to me. I do not need the original, nor does anything need to be resigned.

Sincerely,

Rachel – in answer to the questions noted below:

Only one well is planned on any one lot. I'd indicated two (or in one case more) potential well sites on lots which straddle Quarter-Quarter lines per what I understood was your request with respect to those lots. In other words, as to each of the 'straddle lots' there will be only one well, located in either QQ section.

Addressing your second question, domestic and stock water will be utilized in each QQ in which a lot is located. How would you like the amendments be evidenced?

- I would prefer to make the corrections by hand, have Tom initial the changes on the copies you forwarded and then send those to you,
- I can reprint the involved applications and have them resigned

Just tell me what you'd prefer and we'll get them to you today or tomorrow.

Dear Applicant,

The purpose of the email is to request application amendments and clarification regarding the above referenced applications that are located in more than one quarter-quarter (QQ) of section 16, township 5 north, range 1 west. Please address the following:

1. Clarification is needed to determine how many wells will be drilled for each of the above referenced applications. Are you proposing a well will be constructed in each of the locations listed on item 4 on the application, or proposing one well will be constructed in one of the multiple locations listed?
2. Item 9 on the applications identifies irrigation will occur in all QQs appurtenant to each lot, while domestic and stockwater uses are only identified in one QQ. If domestic and stockwater uses will also occur in all QQs appurtenant to each lot, please amend item 9 on the application to identify so.

Please respond to this email to clarify item 1 above. If item 2 above results in application amendments, please make the necessary amendments, initial and date the amendments, and email the amended page 2 of each application to me. Let me know if you have questions.
