Re: Comment/Analysis

The original permit application was received on September 18, 2017 then returned to the applicants as incomplete on September 26, 2017 because a processing fee was not submitted with the application. The original application was in fact accompanied by the correct processing fee; Department staff failed to complete the For Department Use portion of the application with the receipt information. The applicants were contacted and the application was returned to our office. The priority date reflects the date the original application and payment were received.
