RE: Water Right Number 85-10624 now changed to 82-12276

Dear Water Right Owners,

A review of our GIS mapping system has determined that a change to your water right number was warranted as a result of a basin map adjustment. Your former water right number of 85-10624 has been changed to 82-12276. This will result in no additional changes to your water right itself. A copy of the proof report noting the water number change is enclosed for your reference. Please use the new number provided (82-12276) in any future correspondence.

Please note that this water right has a point of diversion located on USFS land at the time of the claim, a special use permit was in place to allow access to the point of diversion.

If you have any questions about the information above, you can contact me by email at clay.webster@idwr.idaho.gov or by phone at (208) 287-4910.

I hope this information was helpful.

Sincerely,

Clay Webster
Water Rights Supervisor
Idaho Dept. of Water Resources
