RE: Water Right Permit No. 75-7524

Dear Permit Holder(s):

The Idaho Department of Water Resources issued a permit for 75-7524 on September 24, 1990. Proof of beneficial use was submitted on August 21, 1992. During a field exam on July 19, 2016, I found evidence of the irrigation of 5 acres. The enclosed application for amendment includes the location of a point of diversion that was developed differently than what was authorized under the permit.

By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 21 days, August 3, 2017.

If you have any questions, please call me at (208)287-4881 or [sandra.thiel@idwr.idaho.gov](mailto:sandra.thiel@idwr.idaho.gov).

Sincerely,

Sandra Thiel  
Sr. Water Resource Agent
