Water Right Permit: 75-7524

Dear Sir or Madam:

The Idaho Department of Water Resources (IDWR) issued permit 75-7524 to Diane and Alert Brown in September 1990. County records indicate that you now own the property on which the water development occurred. The permit is being reviewed for licensing, which is the final confirmation that a water right has been established. I am writing to give you the opportunity to complete the water right licensing process.

Before IDWR can issue a water right license, the permit must be amended to depict the water right as it was actually developed. By issuing a license, IDWR confirms the extent of development that has been established in compliance with the terms of the permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, sign the form and return it with the \$100.00 filing fee by September 8, 2017.

Water right permits are considered personal property. The license will be issued in the name of the current permit holders Christine G and Jerry L. Mc Millan. However, once the license is issued, the water right becomes appurtenant to the land, regardless of the name listed on the document, and you can submit an ownership change notice at that time. There is a \$25.00 fee to change the ownership of a water right.

If you have any questions about this information, please contact me at 208-287-4881 or sandra.thiel@idwr.idaho.gov. If IDWR does not receive a response within 30 days, we may take action to void your permit.

Sincerely,

Sandra Thiel
Sr. Water Resource Agent
