RE: Water Right Permit No. 75-7524

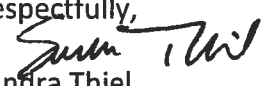

Dear Mr. Pillsbury:

I am writing to you about Water Right Permit 75-7524. The permit is being reviewed for licensing, which is the final confirmation that a water right has been established. Because Lemhi county records indicate that you may now own the property on which the water development occurred, I am writing to give you the opportunity to complete the water right licensing process.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, The Idaho Department of Water Resources (IDWR) recognizes that all the requirements for establishing a water right were met. No water right license can be issued, however, if the development authorized by the permit did not occur within the authorized time period. For that reason, before issuing a license IDWR must conduct an examination to verify the development. I will be working in the Salmon area during the month of July. I would like to schedule a time to conduct the field exam. It is not necessary for you to be present during the exam but I do need your permission to take a measurement on your property. **If I do not hear from you within thirty days, I will assume you no longer have any interest in establishing a water right, and I will take action to void the permit.**

We have been advised that you may also be the current owner of right 75-93D for irrigation and 75-14748 for domestic use. Please return the completed form along with the required support documentation and fee to my attention. I will be happy to update our records upon receipt of this information.

Please contact me by telephone at 208-287-4881 or at sandra.thiel@idwr.idaho.gov.

Respectfully,

Sandra Thiel
Sr. Water Rights Agent
