Subject: HEARING FOR APPLICATION PERMIT NO. 95-17241
To: james.cefalo@idwr.idaho.gov

Dear Mr. Cefalo.

Attached to this email is the request the protestors have submitted to postpone the hearing for 2 months. We feel we have been deceived and defrauded on this matter. As I stated, Steve came to us and gave us this Amended Application which takes out the pond and puts the water into a cistern. We decided to keep the protest based on various reasons, and sent a letter to Morgan Chase stating our reasons. The reasons WERE BASED ON THE AMENDED APPLICATION. It is very easy to see this. There was no talk of "Let me have the permit or I won't do the Amended Application". Steve stated this was how he was going to do the project.

We were never informed that the Amended Application was going to be dropped by either Steve Barnhart or the Coeur d'Alene office of IDWR. It wasn't until Sept 1st that I learned (quite by accident) that the original application was in the hearing, not the amended application. This makes a great deal of difference to us. We need more time to get our expert witness in line for the hearing based on the pond.

I also filed a complaint against the Barnharts on the practices they have engaged in on Careywood Creek. The complain was filed last spring, and I have been waiting for the document on their findings. I asked Morgan Chase many many times to please get me the document and pictures that were taken. She promised over and over she would get it out to me, but she did not send anything to me before she left. Even after she left, she wanted to send the information and held it up longer in getting it to me. I finally received the pictures by Friday, Sept 1st. Too late to submit for the hearing.

We need the additional two months to set up our answer on this protest. Again, we have been deceived by the applicant. I understand you want us to call Steve and ask if he will agree to the additional two months. I will call him this evening and then let you know what he says. I can tell you now, he won't go for it.
