Dear Mr. Peppersack,

Enclosed please find a Notice of Change in Water Right Ownership for 51-7299, with supporting documentation. This is a domestic water right associated with the C.J. Strike Project Cottonwood Campground. The Idaho Department of Fish and Game originally applied for the right in 1987 when they were managing and operating the facility, located on Idaho Power Property. Idaho Power assumed management of the 3,000 acres it owns within the C.J. Strike WMA as part of the company's new FERC license issued August 4, 2004 license for C.J Strike.

Please let me know if you have questions or need additional information.

Sincerely,

Jonathon C. Bowling
