MEMORANDUM

Date: October 04, 2017
To: Water Right File 65-23730
From: cparker
Re: Number of Livestock

The applicant did not indicate how many livestock they intend to water according to their proposal. However, Lori Graves of SPF, representative for the applicant, confirmed that the plan is to provide in-stream stockwater use for 5 head of mixed stock.

MEMORANDUM

Date: October 03, 2017
To: Water Right File 65-23730
From: cparker
Re: Proposed in-stream wildlife use

The application proposes in-stream stockwater and wildlife use. However, in-stream wildlife use cannot be considered a beneficial use of water developed by the applicant. While there is no argument against the wildlife use of the water it is not being diverted for beneficial use by the applicant per se as is the case with in-stream stockwater (the applicant brings stock to the stream). Therefore, the application will not be advertised with the wildlife use included.
