4. If the water rights and/or adjudication claims were split, how did the division occur?

☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.

Re: Change in Water Right Ownership: 65-22627 (Split into 65-22627 and 65-23729)

Dear Water Right Holders:

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right to you. The Department has modified its records based on the information received to reflect the change in ownership and has enclosed a computer-generated report for your records.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Also note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right, to the Department. Notice of the change must be provided to the Department within **120 days** of the change.

Please feel free to contact me at 208-287-4920 if you have any questions concerning the enclosed information or this letter.

Sincerely,

Debbi Judd

Re: Change in Water Right Ownership: 65-22627 (Split into 65-22627 and 65-23729)

Dear Water Right Holders:

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is issued to the new owner representing their portion of the original water right. Each water right contains only the portion of the original right for each separate owner. The original water right number reflects your remaining portion of the water right, after the change of ownership. Enclosed is a copy of this water right for your records. Please refer to your water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

If you have any questions concerning this ownership change, or the enclosed information, please contact me at 208-287-4920.

Sincerely,
