1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.
13. Water right 13-962 and 13-963 are non-consumptive and therefore unrentable.

Narrative: The Department received this application on April 19, 2017. The applicant wishes to place the entirety of water right 13-962 and a portion of 13-963 in the Bank. Buffi Morris, water rights administrator, signed the application. The applicant had previously filed an Extension of Time to Avoid Forfeiture that expired in 2013. The rights were then placed in the Bank in 2013-2017. The applicant withdrew the right from the Bank early and reapplied to get water rights 13-962 and 13-963 on the same schedule in the Bank. The beneficial use for water right 13-962 is power and 13-963 is power from storage. These rights are non-consumptive and not rentable. These rights are currently within WD 11.

Re: 13-962 Request to Release and Application to Lease
13-963 Request to Release and Application to Lease

Dear Remington:

PacifiCorp is cooperating with Idaho Fish and Game on a native fish holding project near the Bear River, approximately 1.25 miles south of the original point of diversion for water rights 13-962 and 13-963. We are requesting an early release for both water rights (to keep them on the same schedule). A portion of 13-963 will be used for the pond project. PacifiCorp requests that the full right for 13-962 and the remaining right for 13-963 remain in the Water Supply Bank. Enclosed please find two Requests for Release and two Applications to Lease. Also enclosed is a check for the application fee (\$500.00).

Please contact me with any questions, 801.220.7803 or buffi.morris@pacificorp.com

Best regards,

Buffi Morris
Water Rights Administrator
