CONDITIONS OF APPROVAL

1. Right 22-14025 authorizes the diversion of an annual total of 15.4 acre-feet to be used for the replacement of losses caused by evaporation.
2. Industrial use is for gravel/sand washing.
3. The right holder shall cover the gravel/sand washing area at all times when water is being diverted under this right, preventing wind and direct sunlight from entering the spraying area, for the purpose of minimizing evaporation losses.
4. The storage of water established under this right is limited to the fill resulting from natural seepage.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.

WATER RIGHT NO. 22-14019

6. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
7. The excavated pond established by the storage of water under this right shall not exceed a total capacity of 41.6 acre-feet or a total surface area of 5.2 acre(s).
8. Use of water under this right shall be non-consumptive.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 3rd day of October, 2017.
