WITNESSETH

WHEREAS, G.W. is the owner of water right number 43-10090. The water right is used for that real property located in Cassia County, Idaho, more particularly described on Exhibit "A" attached hereto and by reference made a part hereof; and

WHEREAS, Webb is the owner of real property located in Cassia County, Idaho, more particularly described on Exhibit "B" attached hereto and by reference made a part hereof. The well from which the water right is received is located on Exhibit "B."

WHEREAS, the property of G.W. and the property of Webb are contiguous to each other; and

WHEREAS, Webb desires to use water from the well for household use on the property described on Exhibit "B" and

WHEREAS, the parties are desirous of setting forth the rights and obligations of both parties concerning the well.

NOW, THEREFORE, for and in consideration of the terms and conditions herein contained, it is hereby agreed as follows:

1. G.W. is the owner of a one hundred percent (100%) of the water and water rights attached to the well located on Webb's property.

2. G.W. desires to allow Webb to use the same for domestic and household purposes. Webb gives to G.W. the right of ingress and egress onto his respective property for the purpose of inspection, repairing or for any other purpose dealing with said well.

3. G.W. shall be responsible to pay the power bill each month and Webb shall be responsible to pay to G.W. the sum of \$_____ on the first day of each month unless the

parties otherwise agree in writing. The parties shall be allowed to install an appropriate Flow Meter to register the flow to each of their respective properties. After the installation of the Flow Meter the parties shall calculate the total annual flow from the well and all costs incident to the well shall be shared in the respective percents as to each parties share being the numerator and the total being the denominator. Webb shall pay G.W. annually on October 1st each year thereafter the appropriate percent of such costs and G.W. shall pay the power costs and other expenses related to the well according to the providers of the well costs. Costs include repairs to pump, deepening the well, and all other necessary costs to deliver the water. A default in payment shall terminate the right of Webb to receive water from the well.

4. G.W. shall be entitled to use all of the water produced by the well with the exception of allowing Webb to use sufficient water for domestic and household purposes.

6. This Agreement is perpetual and shall apply to the heirs, successors and assigns of the parties and shall be deemed a covenant running with each parcel described on Exhibits A and B.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands the day and year first above written.
