Mr. James Cefalo
Idaho Department of Water Resources
900 North Skyline Drive, Suite A
Idaho Falls, ID 83402

SUBJECT: Submittal of Application for Transfer of Water Right Form for the Idaho National Laboratory Research Center, Water Right No. 25-7263

Dear Mr. Cefalo:

Attached are the completed "Application for Transfer of Water Right" form, applicable attachments, and fee. The request is to change the period of use for the DOE Office of Nuclear Energy-Idaho Operations Office (NE-ID) water right No. 25-7263 from May 1st to October 1st of each year to April 1st to November 1st each year. The requested change will not increase the flow rate or volume of water allowed by the water right. However, the change will allow for the building cooling system at the Idaho National Laboratory's Research Center to be operated from April 1st through October 31st each year, on an as needed basis.

As previously discussed with you, the application fee is \$500 and is based on the cubic feet per second allowed by the water right. Also discussed, was the applicability of Part 3A of the water right transfer form. This part requires a map showing the diversion, measurement, control, and distribution system. Because only the period of use and not the location of the diversion or distribution system is being changed, you indicated Part 3A was not applicable. Therefore, Section 3A as well as the boxes on page 1, requiring Part 3A and Attachment #7a, are not checked.

BEA is submitting this application on behalf of the NE-ID.

If you have any questions regarding the application/information, please contact Mike Lewis at 526-0623.

Sincerely,

Timothy A. Miller, Director
Environmental Support and Services

MGL:CMM
