Re: Water Right No. 13-26B Transfer Application

Dear James,

Enclosed is the original and one copy of an Application for Transfer of Water Right No. 13-26B submitted on behalf of Cub River Irrigation Company. Please file the original and conform stamp the copy and return it to me in the enclosed envelope.

The purpose of this application is to correct the season of use of water right 13-26B. Water right 13-26 was decreed with a season of use of 4/1-10/31. Several years ago water right no. 13-26 was split into A and B via transfer no. 5010. That transfer application did not seek to change the season of use. However, the transfer approval for 13-26B changed the season of use to 4/15-10/15 while the transfer approval for 13-26A retained the original 4/1-10/31 season of use. Cub River Irrigation has since then regularly diverted water prior to 4/15 and after 10/15 and just recently discovered that the season of use of 13-26B had been shortened to 4/15-10/15. It appears that the season of use was changed through a clerical mistake in connection with transfer no. 50-10. The enclosed application seeks to correct that mistake by restoring the original 4/1-10/31 season of use.

Because this transfer does not change the point of diversion or place of use, I propose proportioning the filing fee based upon the expanded season of use. The change from 4/15-10/15 to 4/1-10/31 extends the season of use by 30 days, from 184 to 214 days, or 16.3%. This is equivalent to a change to 6.25 cfs of the water right, resulting in a filing fee of \$980.

Accordingly, I have enclosed a check in the amount of \$980 for the filing fee.

Thank you for your assistance with this matter. Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'T.J. Budge', with a stylized flourish at the end.

T.J. BUDGE
