13	Narrative: The Department received this application on May 18, 2017. the applicant wishes to place a portion of the water rights in the Bank. These portions are the pivot corners. Tommy Funk, president, signed the application (see operating agreement attached to application). Although there are combined limits on the water rights, they are additive. Each right will be on a separate contract. Informed the applications consultant, Brockway Engineering, that an option was to place all 82.5 acres in the Bank under one right. Their client didn't want to fill out new paperwork so the Department processed the applications as received. These rights were decreed in 2003 and placed in the Bank in 2006. They were released in 2016. These rights are currently within WD 130.
