

MEMORANDUM

Date: September 12, 2017

To: Transfer 81772

From: Kerrie Mathews

Re: Transfer Evaluation

Transfer No. 81772 for water rights 25-14364 proposes to change the point of diversion. A notice of ownership change was also included with the transfer application. The ownership change was completed prior to the transfer application. The resulting water right (25-14457) was the only right included in the transfer application.

Authority to file:

The water right, proposed point of diversion, and place of use are currently in the transfer applicants name.

Validity of the Water Right:

Water right 25-14364 was licensed on January 29, 1997. Aerial photography does not show irrigation until 2016. Water right was protected from forfeiture based on an approved extension of time to avoid forfeiture filed for parent water right 25-14247.

Injury to Other Water Rights:

No injury to other water rights was identified. The application was advertised, no protests were received. The water master for WD120 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
