The United States of America ("Protestant") and PacificCorp, an Oregon Corporation ("Applicant") agree and stipulate to resolve the United States Department of Interior, Bureau of Land Management ("BLM") protests of Application for Permit No. 13-07996 and Application Transfer No. 81756 (involving 13-00963).

STIPULATION

WHEREAS, the Applicant filed Application for Permit No. 13-07996 and Application for Transfer No. 81756 (involving 13-00963) on July 1, 2017 with the Idaho Department of Water Resources ("IDWR") to seek a new Point of Diversion ("POD") for fish propagation.

WHEREAS, the BLM filed protests to Application for Permit No. 13-07996 and Application for Transfer No. 81756 because the POD described a legal land description that entirely describes federal public land managed by BLM (T10S, R40E, S28, NESWSW). At the time of protest, the Applicant was not authorized to construct a POD nor a conveyance conduit on federal land for fish propagation purposes.

WHEREAS, the Applicant filed an Application for Right-of-Way ("ROW") on August 14, 2017, and a grant of ROW was issued by BLM on August 23, 2017.

WHEREAS, the Protestant and the Applicant wish to resolve their dispute regarding Application for Permit No. 13-07996 and Application for Transfer No. 81756;

THEREFORE, the Protestant and the Applicant stipulate and agree as follows:

1. The parties agree and stipulate that IDWR should approve the Application for Permit No. 13-07996 and Application for Transfer No. 81756, provided that the following limiting conditions are included in IDWR's approvals:

a. "This right does not grant a right-of-way or easement across the land of another."; and

b. "This right is subordinate to any rights established on this water source under federal law pursuant to Public Water Reserve 107."

2. The Protestant hereby withdraws its protest upon acceptance, approval and adoption of this Agreement by IDWR in its entirety.

Respectfully submitted,
