This is to verify that the well serving my property at 4939 Bottle Bay Road in Sagle Idaho is clearly on this property, not shared with any others and approximately 11 feet from the property line. Due to the fact that the tax parcel boundaries on the map do not line up with the actual property lines it appears that my well could be on the neighboring property. This is clearly not so.

Sincerely,

Joan C. Sutton

Re: Initial Review of Application for Permit.96-9671 (Application ID 81893)

Dear Ms. Sutton:

Please send me a statement, as we discussed yesterday via telephone, that clarifies the location of your well. This should explain how the property tax parcel boundaries shown on your Application map give the appearance that the well is not on your property.

Please contact me concerning corrections that are required for your Application. The Edwards Well Drillers Report (96-93-N-324-000) that you relied upon to complete Page 1 of your Application has an inaccurate legal description for the Quarter Quarter. The correct legal Quarter Quarter legal description, matching your Application map, is Govt Lot 3, NE, NW. The required corrections are shown in the enclosed Example Application.

Please complete and return the corrected Application as soon as possible to avoid delays in publishing legal notices. I can be reached at (208) 762.2816 if you have questions.

Respectfully,

Ms. Sutton:

Please telephone me at (208) 762.2816 concerning your Application for Permit and the statement we discussed on your parcel boundary.

A couple of corrections are required to the legal descriptions in your Application For Permit. I am sending a letter via U.S. mail with a copy of your Application to make the corrections on before returning it to IDWR.

We can review how to make the corrections over the phone if you have access to a printer to print out the attachments to this e-mail.
