MEMORANDUM

Date: September 19, 2017
To: Transfer 81881
From: William Mills
Re: Legal Notice Not Required

This application modifies the place of use and adds an existing well that is tied into the water system to both water rights. As the two wells are already tied together in a system, and are within the same ESPA ground water model cell, there is no actual hydrologic change. Therefore, pursuant to Section 42-222, Idaho Code, this transfer can be processed and approved without advertising.

Legal Notice Not Required
5/4/2017

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

MEMORANDUM

Date: September 19, 2017
To: Transfer 81881 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes adding additional tracts to the place of use (POU) in two adjacent quarter-quarters that are part of the same commercial dairy operation to two stockwater/domestic ground water rights. Transfer also proposes adding an existing well that is tied into the water system to both water rights. Proposed points of diversion (PODs) and POU are located approximately 1.8 to 2.0 miles east and 4.2 to 4.5 miles south of the intersection of Main St and Lincoln Ave in Jerome.

This transfer is companion to transfer application #81865. Transfer application #81865 is proposing to move a 0.06 cfs, 14.8 af portion of a stockwater/commercial right from a farm located approximately 0.25 to 1.0 miles west and 1.3 to 1.58 miles north of the intersection of Hwy 26 and Hwy 46 in Gooding to the two existing wells and the same POU proposed in this transfer.

Overlap analysis finds no other stockwater/commercial/domestic rights within the proposed POU or diverted from the PODs.

POD and POU are located in Water District 130 and the Eastern Snake Plain Aquifer. Both wells in this transfer are located in the same ESPA model grid cell, therefore, no model analysis was required. Watermaster comments will be solicited.

This application modifies the place of use and adds an existing well that is tied into the existing water system, and as such, there is no actual hydrologic change resulting from this proposed transfer application. Therefore, pursuant to Section 42-222, Idaho Code, this transfer can be processed and approved without advertising.

- **Authority to File:** IDWR records indicate the applicant either currently owns the water rights in this transfer application or has provided conveyance documents indicating ownership along with appropriate fees for a change of ownership. A copy of a warranty deed was provided indicating the applicant owns the additional acreage proposed to be added to the POU in this transfer application.
- **Water Right Validity:** Water right 36-11081 was decreed in the SRBA on 11/15/1996 and right 36-15271 was decreed in the SRBA on 12/10/1996. Recent aerial and satellite imagery indicates the dairy facility is currently in operation.

- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing

MEMORANDUM

Re: Fee Evaluation

Filing fees charged for transfer application #81881 were based on the on the current transfer fee schedule and included \$200.00 for the 0.11 cfs being transferred in the application (receipt #S036319) and an additional \$25.00 was also paid for a change of ownership for water right 36-11081 (S036345).

Re: 36-15271 and 36-11081

Dear Mr. Mills:

The attached transfer application is an amendment to Transfer #81881. Water right 36-11081 was not included in the previously submitted application. The ownership of 36-11081 needs to be updated to show that J T Land LLC owns 36-11081. The place of use for the stockwater and domestic uses of 36-15271 and 36-11081 will be updated with this transfer.

The diversion rates, beneficial use and period of use will not be changing with this transfer.

The previous transfer application fee of \$200.00 will cover the transfer processing fee for this amendment. A check for \$25.00 will be submitted with this letter to pay for the ownership change of 36-11081.

Please contact me if you have any questions.
