

## MEMORANDUM

TO: File 85-15776

FROM: Daniel A. Nelson

DATE: September 11, 2017

SUBJECT: In-field exam needs to be done.

This permit proposes to divert water from a spring that is tributary to sinks. Aerial photography and the Topo maps suggest that this spring may be tributary to Lindsay Creek. A field exam is required to ensure they are not actually diverting the water from Lindsay Creek, and to ensure that the spring and creek are not connected.
