RE: Allocation of Ground Water Right 34-2425A in Crows Nest Estates Subdivision

Dear Property Owner:

IDWR has recently received a number of notices from people seeking to update the ownership records for their portions of an irrigation water right associated with the Crows Nest Estates Subdivision located in Custer County, Idaho. According to taxlot information provided by Custer County, you own one or more of the lots in the Crows Nest Estates Subdivision. This letter is intended to provide a history of the irrigation water right associated with the property and describe the method used to allocate the water right between the lot owners in the subdivision.

In the early 1990s, Robert Silacci (dba Lost River Development Company) created the Crows Nest Estates Subdivision. At that time, water right 34-2425 was appurtenant to the property. Water right 34-2425 bore a priority date of December 17, 1961 and authorized the diversion of 2.94 cfs from ground water and the irrigation of 147 acres. On October 21, 1993, IDWR approved Transfer No. 3896, which moved a 21-acre portion of water right 34-2425 to a separate, unrelated property in the Big Lost River Valley. The remaining portion of the right (identified as water right 34-2425A) authorized the diversion of 2.52 cfs from ground water and the irrigation of 126 acres.

On June 10, 1994, Robert Silacci executed a document titled: "First Amendment to Master Declaration of Covenants, Conditions and Restrictions of the Crows Nest Subdivision" ("Amendment"). The Amendment was recorded with Custer County on July 5, 1994 (Document No. 206833). The Amendment states that Silacci was the owner of water right 34-2425A in June 1994 and declares that the water right was to be used to benefit all of the lot owners in the subdivision. Exhibit B was attached to the Amendment, outlining what portion of water right 34-2425A was assigned to each lot in the subdivision. I've enclosed a copy of the Amendment and its exhibits for your reference.

After 1994, the lots in the subdivision were sold off to various owners. Many of the lot owners have contacted IDWR to update the ownership of their portions of the water rights. For each ownership change notice filed, IDWR split the water right, creating a separate water right with a new water right number for the lot owner. Most of these water right splits were consistent with Exhibit B of the Amendment. Unfortunately, some of the splits were not correct because they were not consistent with Exhibit B.

I have just completed a review of all the water rights which have been split off of the original water right (34-2425A) over the years. I have adjusted all of the water rights to

match the allocation described in Exhibit B of the Amendment. Enclosed is a table showing all of the relevant water rights as they exist today. I have also included reports showing the elements of each of the water rights. Please note, six of the property owners have never contacted IDWR to update ownership for their portions of the water right. The remaining portion of the water right, associated with those six lots, will remain in the name of Robert Silacci until the lot owners file the paperwork necessary to update ownership.

Please contact me directly if you find any errors in the water rights or if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Cefalo', written in a cursive style.
