This document is being prepared to satisfy the stipulated agreement dated December 1, 2014 signed agreement between SWC, Idaho Power, IGWA and Lance Funk pertaining to the approval of water right permits 35-14240, 35-14241, 35-14242 and 35-14243. The stipulated agreement states that a written report by a qualified consultant will verify the actual acres irrigated during the current irrigation season by August 15 of each year.

Water right permit 35-14240 is irrigating 168.7 acres during the 2016 irrigation season. A site inspection was performed on July 12, 2017.

Water right permit 35-14241 is irrigating 369.1 acres during the 2016 irrigation season. A site inspection was performed on July 12, 2017.

Water right permit 35-14242 is irrigating 119.5 acres during the 2016 irrigation season. A site inspection was performed on July 12, 2017.

Water right permit 35-14243 is irrigating 659.0 acres during the 2016 irrigation season. A site inspection was performed on July 12, 2017.

It is expected that the proof of beneficial use exam has been performed and IDWR has processed the documents.
