The purpose of the transfer is to change a portion of the above rights as follows: Application for transfer proposes the creation of a 4038.2 acre irrigation Permissible Place of Use (PPU) for thirty-six ground water rights which currently irrigate 3000.7 acres on ground located approximately 9.5 to 15.5 miles north and 1.7 miles west to 1.9 miles east of Malta. The rights are currently irrigating ground under three separate entities and this transfer will consolidate the rights into a single PPU in the same general area. One group of 3 rights irrigates 60.5 acres with a 1.17 cfs flow rate, another group of 3 rights irrigates 346.0 acres with a 6.22 cfs flow rate, and the final group of 30 rights irrigates 2594.2 acres with a total flow rate of 39.78 cfs. After the transfer, 3000.7 acres will be irrigated with a combined flow rate of 47.17 cfs within the proposed 4038.2 acre PPU.

Currently, the rights in the three separate farms have distinct Points of Diversion (POD) for each farm. This transfer will add the PODs from each farm to the other two farms so that each ground water right will have 19 PODs.

Re: Amendments to transfer

Portions of transfer #81521 have been amended as many as three times. Notably confusing is the March 20, 2017 amendment which attempted to add the commercial portion of three stockwater/commercial rights, while at the same time, provided corrections to the original application. Most of the corrections made in the 3/20/2017 amendment were later amended on 5/8/2017 and 5/20/2017. The following is a summary of the amendments page-by-page through the transfer.

Page 2

Page 2 was amended on 7/20/2017 to indicate that the representative may submit information for the applicant, but is not authorized to sign for the applicant.

Page 3

Page 3 was amended on 3/20/2017 to include the commercial portion of three rights. It was amended again on 5/8/2017 to show corrected flow rates and volumes after removing the commercial portions of the three rights. It also corrected an error on the total volume of the transfer which existed since the original application was filed.

On 7/20/2017 page 3 was amended again to show total PPU acres matched the map description of the same acres.

Exhibit 1. B. 1

An amendment of this page was submitted with the 3/20/2017 amendment package. The information presented on the page is the same as that on the original application.

Exhibit 1. B. 3

This page was amended on 3/20/2017 to show PODs of commercial rights in addition to those of the irrigation rights in the original application. Another amendment on 5/8/2017 corrected errors on the first two versions and removed PODs that were added with the commercial amendment. The 7/20/2017 amendment submitted an Exhibit 1. B. 3 identical to the 5/8/2017 page.

Exhibit 1. B. 4

The 3/20/2017 amended page is the same as the page on the original application. A supplemental commercial page was submitted at the same time to reflect the addition of the commercial rights to the transfer. On 5/8/2017 another amended page was submitted showing the POU and PPU acres as originally filed.

Page 4

The 3/20/2017 amendment reflected the commercial amendment submitted at that time, but it was later withdrawn.

Part 2As

Part 2A printouts of the three rights whose commercial portions were added in the 3/20/2017 amendment at that time, and later were marked 'Withdrawn per 5-12-2017 email'.

Exhibit A

On 3/20/2017 an amended page showing security interests and ownership of the rights was submitted reflecting the addition of the three commercial rights. The commercial portion was later withdrawn.

Maps

The POU map submitted with the original application was amended by the 3/20/2017 amendment. The 3/20/2017 amendment PPU map superseded the original PPU map. The 5/8/2017 amendment supplied an updated PPU acreage map superseding the 3/20/2017 map. The 7/20/2017 amendment supplied a map showing the PODs matching the POD list submitted at that time.

Re: Summary of transfer

Application for transfer proposes the creation of a 4038.2 acre irrigation Permissible Place of Use (PPU) for thirty-six ground water rights which currently irrigate 3000.7 acres on ground located approximately 9.5 to 15.5 miles north and 1.7 miles west to 1.9 miles east of Malta. Currently, the rights in the three separate farms have distinct Points of Diversion (POD) for each farm. This transfer will add the PODs from each farm to the other two farms so that each ground water right will have 19 PODs.

Only minor adjustments to the overall POU are anticipated with this transfer; the transfer should be advertised, however, because the transfer changes PODs in the Raft River Critical Ground Water Area.

Comment will be solicited from the Watermaster of Water District 143.

The rights involved in the transfer include: 43-2328, 43-2369, 43-2427, 43-2492, 43-2544, 43-4207, 43-4229, 43-2338B, 43-11132B, 43-12986, 43-12987, 43-12989, 43-12990, 43-13034, 43-13068, 43-13620, 43-13621, 43-13622, 43-13623, 43-13624, 43-13625, 43-13626, 43-13627, 43-13628, 43-13629, 43-13630, 43-13631, 43-13632, 43-13633, 43-13671, 43-13672, 43-13673, 43-13674, 43-13675, 43-13676, and 43-13689.

This transfer has been amended three times so a memo outlining the amendments has been inserted into the file to reduce confusion.

Re: ADT, ADTD and Midway Transfer #81521

Dear Mr. Bitzenburg:

This letter and the attached documents have been prepared in response to your June 13, 2017 letter regarding transfer #81521.

The intended PPU acres is 4038.2 and a new page 3 of the transfer application is being submitted at this time.

The irrigation points of diversion for all of the water rights will be updated to reflect the existing 19 wells that are identified in the attached Exhibit 1.B.3 list and map identifying all 19 well locations. These well locations do not match the partial decree POD descriptions. Transfer #81521 will correctly identify the well locations on this farm.

Mr. Crane and Met Life have provided their consent to transfer #81521. Attached to this letter are documents from both entities giving their consent to allow transfer #81521 to be processed by IDWR.

A Contract of Agreement between ADT Farm, LLC, ADTD Farm, LLC and Midway Dairy, LLC has been signed. The agreement indicates who will retain ownership of the water rights after transfer #81521 has been processed by IDWR.

Sincerely,

Greg Sullivan, M.S., Engineer

Dear Greg:

Transfer #81521, in the name of ADT Farms, LLC; ADTD Farms, LLC; and Midway Dairy, LLC was received in our office on March 10, 2017. Since that time, several amendments have been submitted. In reviewing the most recent amendment, received on May 8, there are several discrepancies. The amended page 3 shows a PPU acreage of 4038.1 acres in two places under #4, while the map and land list submitted at the same time show a PPU acreage of 4038.2 acres. Which figure is correct?

On the amended POD list, submitted at the same time, you show a POD in 11S, 26E, Sect. 14, NENW. None of the water rights show a POD there, as far as I can tell. Also, our records show right 43-12987 having two points of diversion, one in 11S, 26E, Sect. 12, NWSW and the other in 11S, 26E, Sect. 11, SWNW. The other rights in that group show the POD in Sect. 11 in the SWNE. I'm guessing this is an error from the past and the correct POD description should be the SWNE? The partial decree shows the POD for 43-12987 in Section 11 to be in the SWNW. On your POD list, you show neither POD in Sect. 11 being in those locations, but in the SENW, which I believe is incorrect. You should probably rework your POD list and resubmit it.

There are a couple of other areas that need to be addressed. We still need to receive a lien holder consent letter from Roger Crane. Mr. Crane is listed as a security interest on the water rights which were appurtenant to the property purchased from him by ADTD Farms, LLC, and we cannot continue processing this transfer without the lien holder consent letter. We did receive a lien holder consent letter from Metropolitan Life Insurance Company on May 8.

Additionally, when Hattie Zobott filed the transfer, her cover letter noted that the three entities forming the Permissible Place of Use would maintain ownership separately and that agreements supporting this would be provided. Thus far, we have not received any of these ownership agreements and therefore cannot continue processing this application. When you, Hattie, and I met in my office on May 4 of this year, I mentioned the need for the lien holder letters and the water ownership agreements, and reiterated the need for these documents in a May 12, 2017 email to you.

One final item needs addressed at this time, and that is on page 2 of the application where it says 'The representative may submit information for the applicant but is not authorized to sign for the applicant'. This box is not checked, but you have been submitting information pertinent to the application. You will need to submit a new page 2 signed by Todd Gerratt with that box checked. Other than substituting your name for Hattie's, the rest of that information should stay the same. The alternative would be to have Todd Gerratt submit all requested information.

Please supply the above requested documents within 30 days of the date of this letter, or I will return your Application for Transfer and initiate a refund of the filing fee with the State IDWR office. Feel free to contact me if you have any questions. Thank you.

Sincerely,

Jim Bitzenburg

FEE MEMORANDUM

Date: May 16, 2017
To: ADT Farms, LLC, ADTD Farms, LLC, Midway Dairy, LLC transfer #81521 file
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was filed on 3/10/2017 by the representative, Brockway Engineering, with a total flow rate of 47.17 cfs, and since all three farms will have an inter-connected system with the rights sharing common points of diversion, the entire flow rate should be used to determine the fee. From the transfer fee schedule, for the first 20 cfs, the fee is \$2020.00 and each additional cfs, or portion of, is charged at \$40.00/cfs ($\$40.00 \times 28 = 1120.00$). Therefore, the required fee is \$3140.00, which was paid by Brockway Engineering with check #13904 on 3/10/2017, receipt S035987.

On March 20, 2017, Brockway Engineering submitted an amendment to the transfer to bring the commercial portion of rights 43-2555B, 43-2366B, and 43-2375B into the transfer. They paid \$120.00 with check #13932, receipt #S036006. On May 12, 2017, they withdrew the amendment and requested a refund of the fee. On May 16, 2017, I emailed Sasha Marston to initiate the refund process.

Greg-

I received the amendments you sent over, and upon initial review, they look like they are what we need. There are a couple of other items that need to be taken care of. This week we also received the lienholder letter from MetLife giving their consent to the transfer, but we still need to get a similar letter from Roger Crane giving his consent to the transfer. We also need to get letters or agreements from the water right holders involved that each entity will maintain water right ownership separately (a water-sharing agreement). Hattie had indicated this in her original cover letter so you can talk to her about what is needed there.

In your letter dated May 8, 2017, you indicated that the transfer does not propose to incorporate any commercial or stockwater rights. Do you wish to withdraw the amendment dated March 17, 2017 that proposed adding the commercial portion of rights 43-2555B, 43-2366B, and 43-2375B? If so, do you wish to have IDWR initiate a refund of the additional fees of \$120.00 which were paid at the time the amendment was received (March 20, 2017)?

Dear Mr. Bitzenburg:

At this time an amend page 3 of Transfer #81521 is being submitted to IDWR. The amended page 3 correctly identifies the allowed diversion rate, annual volume and the proposed permissible place of use acres.

An updated aerial map depicting the PPU and the proposed PODs is attached to this letter. Exhibits 1.B.3 and Exhibit 1.B.4 have been updated and are being resubmitted to IDWR also.

Transfer #81521 does not propose to incorporate any commercial or stock water rights into this transfer.

Hattie-

I've been doing more review of the ADT, ADTD, Midway Dairy transfer and in going through the combined limits on all of the rights, there is a combined limit of rights 43-12986, 43-13034, and 43-13035. The latter 2 are expansions of 43-12986. Right 43-13035 is in the name of G. H. and G.T. Matthews, but it appears from our tax lot layer that the land there is owned by Midway Dairy and ADTD Farms. It looks like there is a house and a small feedlot in the NW corner of the NWSW of Section 12, T11S, R26E where 43-13035 is appurtenant. If the land there is owned by ADTD and/or Midway, they probably should get the chain of deeds and do a change of ownership. The other odd thing about that right is that it is an expansion right, but is domestic and stockwater. So I assume it'll get curtailed. One option would be to do the ownership change then file a Notice of Abandonment of Water Right. Then they would have a domestic exempt which wouldn't go away. We may want to discuss this with Nathan Erickson. He's on vacation now, and next week he's at the meter lab out at the research station. I asked Corey about it, and he said he's never seen it before.

Anyway, you may want to do some checking on it with Todd. Thanks.

Re: ADT, ADTD, Midway Dairy, and Roger Crane Farm POU/PPU

Dear Mr. Skinner:

Todd Gerratt would like to include the Commercial portion of the following rights in the PPU proposed in the recent transfer: 43-2555B, 43-2366B, 43-2375B.

The changes will increase the diversion transfer from 47.17 cfs and a fee of \$3,140 to a diversion of 50.27 cfs and a fee of \$3,260. Of which, \$3,140 has been paid to the IDWR. Thank you for your consideration of the proposed changes.

Sincerely,

Hattie Zobott, P.E.

Hattie-

I have been lucky enough to be staffed the above transfer, and in taking a very quick look at it, one thing that I can see is an issue is that the POU land list and the map don't match up. The land list shows 4039 acres and the PPU map shows 4043.9 acres. We need to have those two numbers, and the acres in each QQ in the map and the land list, match up. Other than the thickness of the application, it's more tedium than anything. As I'm sure you are well aware. I'll get you a reference number as soon as I can. Thanks-

Jim

Re: ADT, ADTD, Midway Dairy, and Roger Crane Farm POU/PPU

Dear Mr. Skinner:

Todd Gerratt is a member of the following entities: ADT Farms, LLC, ADTD Farms, LLC, and Midway Dairy L.L.C. The farms are operated as a group and Mr. Gerratt proposes to create a Permissible Place of Use with a Place of Use for the water rights. Each entity will maintain ownership separately and each security interest will only maintain interest in the water rights originally appurtenant to the land of interest.

The security interests will supply notarized letters, as required, once the transfer is assigned a reference number. The ownership acknowledgements will also be supplied once a transfer reference number is assigned. Thank you for your consideration of this transfer.

Sincerely,

Hattie Zobott, P.E.
