

MEMORANDUM

Date: July 24, 2017
To: Water Right File 67-7953
From: Cody Parker
Re: POD Location

A petition for reconsideration was filed concerning the preliminary order granting license No 67-7953. The applicant argued that the location of the point of diversion described on the license was incorrect. The preliminary order was withdrawn in response to the petition. To correct the error, WRA Aaron Skinner completed a site visit and took GPS coordinates of the POD (groundwater well). The coordinates for the POD are 44.263579 by -116.954608. This places the well in the SENE of Section 29, T11N, R05W, B.M.. A new license has been drafted as of 07/24/17. The POD location was developed different from what was proposed and authorized on the application. A license amendment will be required to update the POD description.
