Subject: Casa Del Norte Protested Transfers

The Department has two contested applications for transfer before it that contemplate changes to water rights on the CDN ranch. Both have been protested by Double Anchor Ranches. One is an earlier transfer (#80342) and the other was recently advertised and protested (#81800). I'll be sending out an acknowledgment for the 81800 protest shortly and will include calendars to schedule a prehearing conference. I expect we can take that time to discuss both transfers. Please let me know, either via email or in response to the scheduling request, if any of you prefer to schedule the conferences separately.

Also, the Department does not have an attorney on record as representing Casa Del Norte, so if there is legal representation, please forward that information on to me.

Thanks,

Nick Miller.
