**RECITALS**

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on December 29, 2016.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)

Minimum Payment Acceptable: Non-Rentable

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2017 to December 31, 2021. This Lease shall bind the parties and take effect when both parties have signed it.

During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Narrative: The applicant wishes to place the mitigation portion that is not being used as mitigation for any other right in the Bank. The Department received this application on December 29, 2016. We placed this application on hold until water right permit 37-21742 was licensed since this right is being used for mitigation for water right 37-21742. The applicant wanted to place 11.8 acres in the Bank but after 37-21742 was licensed the consultant reduced the number to 11.3. See email in file. This is a supplemental to water from the Little Wood River Canal and is considered unrentable. This right is currently within WD 130.

The Department is going to put the lease of water right 37-22205 on hold pending licensing of permit 37-21742. The Department needs to verify that only 8.2 acres of water right 37-22205 is needed for mitigation. If so the 11.8 acres would be converted back to irrigation and we would place the irrigation portion in the Bank. I'm trying to get the license for 37-21742 expedited. Just a note to see where you are in getting consent from the Hiawatha Canal for these water rights for Blaine County School District.

And....

Water right 37-22205 is a mitigation right for water permit 37-21742. The Department recently received the Proof of Beneficial Use for this permit. Has SPF completed a field exam for this permit? If not, how did you or Blaine County School District come up with the number of acres being irrigated under permit 37-21742 which determines how much of water right 37-22205 can be placed in the Bank? Please let me know.
