1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
13. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
14. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
15. These rights when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

RE: WATER SUPPLY BANK LEASE CONTRACT FOR WATER RIGHTS 35-14453 and 35-14454

Dear Lessor:

Water rights **35-14453 and 35-14454** were leased into the Water Supply Bank (Bank) as of August 7, 2017, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2017**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Water Supply Bank

**RE: APPLICATIONS TO LEASE WATER RIGHTS 35-14453 and 35-14454
TO THE WATER SUPPLY BANK**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your applications to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2017**, unless the rights are released earlier by the Board, or upon your request. To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at 287-4800.

Remington,

It appears that everything is in order with the leases and rentals. I don't have any concerns or comments. We recently rescinded an old transfer, restoring the original volume under water rights 29-2284 and 29-2301. This made a small amount of additional volume available for rental. I'm glad Power County found a use for the water.

James,

Falls View Cemetery (in American Falls) has tried to secure a rental for 2017 but has run into a few problems. After multiple iterations, I believe we can now finalize a rental for the cemetery. However, I expect that a conversation about the rental of Power County's industrial water rights may be necessary.

As Watermaster for Water District 120, all leases and rentals are subject to your administration. Could you please review the attached drafts and review memos for the lease of water rights 29-2284 and 29-2301, as well as 35-14453 and 35-14454, along with the draft review memo and rental agreement for Falls View Cemetery, and advise if you have questions, comments or concerns.

Pam is cc'd here as well as I will be delivering the physical paperwork and files to her for additional review.

Thank you both,

Remington

Re: Water Supply Bank Lease Application 865 for Contract 660

Purpose/Narrative: Lease applications for the above water rights were received on August 7, 2016. The water rights are being leased into the Bank for 2017 to facilitate a rental request by Falls View Cemetery (Rental Application 666).

Authority to File: Applications are submitted by William and Joanne Toevs, with assistance from their representative, Greg Sullivan of Brockway Engineering. The Toevs are both the recognized title holder of these water rights, as well as the land to which they are appurtenant. The points of diversion for these water rights are located on lands not owned by the Toevs, however application documentation for Transfer 80764 (recently approved in 2016) authorizes an easement for the Toevs to connect irrigation equipment to the points of diversion. No concerns about authority to file.

Water Right Validity/Forfeiture Evaluation: The above water rights are the child water rights of parent water rights 35-7246M and 35-13609. Water rights 35-7246M and 35-13609 were decreed by the SRBA court in 2003, prior to being lease into the Water Supply Bank from 2008 through 2015. The water rights were transferred in 2016. No forfeiture or validity concerns.

Injury Evaluation/Rentability: No concerns about injury through lease alone.

Enlargement of Use/Rentability: These are primary (not supplemental) water rights and they are the only water rights appurtenant to the acres authorized for irrigation. No enlargement of use is apparent through the lease. Proper rental review will ensure no enlargement occurs through rental of these water rights.

Local Public Interest: No public interest concerns are apparent specific to this lease.

Beneficial Use/Conservation of Water Resources: *No concerns about beneficial use or conservation of water resources.*

Department/Watermaster Comments: These water rights are subject to administration by the Watermaster and authorized staff of Water District 120. Comments will be requested from Water District 120 Watermaster and IDWR Eastern Region staff James Cefalo.

Water Supply Bank Evaluation: Subject to watermaster and regional comments, these water rights can be leased into the Water Supply Bank.

Re: Toevs Lease Applications

Dear Mr. Buyer:

William Toevs and Joanne Teovs have signed lease applications for water rights 35-14453 and 35-14454 for the 2017 irrigation season.

The Falls View Cemetery District is wanting to rent 10.0 acres of these water right for the 2017 irrigation season. Their rental application has already been submitted to the Water Supply Bank.

The ESPA model analysis for renting the 10.0 acres for the 2017 irrigation season indicates that no mitigation is required for this rental.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer
